

FEATURES + BENEFITS

30 MIL EPDM LINER

- Fish, plant, and wildlife safe
- Flexible even under extreme temperatures
- Easy and fast to install
- Ozone and UV resistant
- **25 year warranty**

Due to extreme price increases in 45-mil rubber liner over the last 18 months, many customers are looking to other types of material such as PVC and HDPE for cost saving measures. Integra Liner allows you to retain this business by offering a high quality material with an unmatched warranty. EPDM rubber has long been the staple of the water feature industry. Offering this economical material will allow your customers to continue using the best product for their application instead of sacrificing quality by using an inferior product like PVC or HPDE. These materials are fine for use in other applications but for water features nothing can compare with the quality and benefits of EPDM liner.

IDEAL FOR:

- Decorative ponds
- Pondless water features
- Rainwater containment systems
- Decorative fountains
- Koi ponds
- Erosion control management
- And much more!

SIZES + AVAILABILITY

MANUFACTURING

Integra EPDM rubber liner is fish safe and designed to be used in a variety of applications, including koi ponds, water gardens, fountains and water features of all kinds. Integra Liner is manufactured in Europe to the highest quality and standards in an ISO: 9001 facility. The molecular composition and properties of EPDM rubber ensures longevity as well as versatility for a wide range of uses.

30-MIL EPDM BOXED

PART#	SIZE (SQ FT)	COVERAGE (SQ FT)	WEIGHT
PL30-1010	10' x 10'	100	17.0 lbs.
PL30-1015	10' x 15'	150	25.4 lbs.
PL30-1515	15' x 15'	225	38.2 lbs.
PL30-1520	15 x 20'	300	50.9 lbs.
PL30-2020	20' x 20'	400	67.8 lbs.
PL30-2025	20' x 25'	500	84.8 lbs.
PL30-2525	25' x 25'	625	106.0 lbs.

CONTAINER DIRECT

Roll sizes up to 40' wide in 30-mil and 50' wide in 40-mil liner are available in container loads. See pricing sheet for more info on container orders.

PERFORMANCE

The durability and performance of EPDM surpasses PVC or HDPE liner. Over the life of an installation Integra Liner will easily outpace cheaper, inferior liners.

SPECIFICATIONS	EPDM	PVC
Resistance to Sunlight (UV)	Excellent	Poor
Resistance to Heat	Good	Poor
Resistance to Hydrostatic Puncture	Excellent	Good
Low Temperature Installations	Excellent	Poor
Long Term Durability	Excellent	Sufficient
